🌐 mostabdelansari 🔄 mostabdelansari 🔗 mostabdelansari.github.io

Developer with over two years experience in .NET and Azure, developing APIs and distributed systems. Specialising in performance, event-driven architectures and high-concurrency cloud environments. Experience in CI/CD, best practices and agile methodologies.

EXPERIENCE

Backend Developer, Raona 12/2023 – Present | Barcelona, Spain

- Development of RESTful APIs and microservices using ASP.NET Core (.NET 7.4, 8 and 10).
- Performance optimisation (LINQ, EF Core caching, indexes in Cosmos DB) in high-concurrency systems.
- Implementation of asynchronous processing using Azure Functions and Azure Queues.
- Database management using SQL Server and NoSQL with Azure Cosmos DB.
- API security using JWT and OWASP best practices.
- Testing with xUnit and Moq, participation in code reviews.
- CI/CD with Azure DevOps and version control with Git (GitFlow).
- Monitoring with Azure Application Insights.

Fullstack Developer, Soficat Xerox 09/2023 – 12/2023 | Barcelona, Spain

- Development of REST APIs and backend services using PHP 8 and Symfony 6.
- Design and optimisation of MySQL databases using Doctrine ORM.
- Implementation of authentication and authorisation using JWT (roles and permissions).
- Development of responsive interfaces using Twig, Bootstrap and CSS.
- Agile teamwork (Scrum), code reviews and issue resolution.

PROJECTS

FitTrack

Web application for managing training routines, with a frontend built using Angular 18 and a backend API in .NET 8 using Entity Framework, JWT authentication and registration with email verification.

Learn Code Path

Development of a complete web application with a REST API in Laravel and JWT authentication, a server-side rendered (SSR) frontend using Next.js, and payment integration via Stripe. Deployment to a production environment using NGINX and SSL.

HARD SKILLS

Backend — C#, ASP.NET Core, .NET 6/8, Entity Framework Core, PHP 8, Symfony 6, Laravel 9, Express, Java 8

Frontend — React.js, Next.js, Angular 15, TypeScript, JavaScript, HTML5, CSS3, Bootstrap 5, Tailwind CSS

Data bases — MySQL, MongoDB, CosmosDB, Firebase Firestore

Cloud & Azure — Azure Functions, Azure Queues, Azure Cosmos DB, Azure DevOps, Azure Application Insights, Azure Blob Storage

Testing & Quality — xUnit, Moq, Code Review, Clean Architecture, SOLID, OWASP

CI/CD & DevOps — Git, GitFlow, Azure DevOps Pipelines, Docker, Linux, Apache, NGINX

SOFT SKILLS

Good communication skills, a proactive attitude and the ability to work well in a team. I adapt quickly to new situations and enjoy solving problems using sound judgement whilst keeping an eye on the finer details.

EDUCATION

Curso Inglés B2 Cambridge First , Academia Challenge	10/2025 – Present Vilafranca del Penedes, Spain
CFGS Web Application Development , Ins Provençana	09/2021 – 06/2023 Barcelona, Spain
Social Baccalaureate , Ins Eduard Fontserè	2012 – 2014 Barcelona, Spain

LANGUAGES

- English** — B2 (Preparing for certification)
- Spanish** — Native/Bilingual
- Catalan** — Native/Bilingual
- Arabic** — Native/Bilingual

BOOTCAMP

Java & SQL (215H), Fundación Esplai - ICT 09/2019 – 12/2019 | Barcelona, Spain
Create frontend MVP applications using HTML5, CSS3, and Bootstrap; develop server-side applications with Java EE 8, Servlets, and JSP; design and query MySQL databases; and collaborate on team projects using MVC and Agile methodologies, leveraging tools such as Slack and Trello.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals AZ-900 [🔗](#)
- Foundational C# with Microsoft [🔗](#)
